Phases: Single Phase

Interconnection Customer Signature

I have read the Guidelines for Generator Interconnection – Fast Track and Study Processes or Guidelines for Interconnection of Residential Single Phase Certified Inverter Based Generating Facilities of 25 kW (ac) or Less and agree to abide by all terms and conditions as provided for in these Guidelines. I understand that my Interconnection Request may be rejected by the Interconnecting EDC or there may be a delay in processing my Interconnection Request if the Interconnecting EDC determines that I have not complied with these Guidelines.

I hereby certify that, to the best of my knowledge, all the information provided in this Interconnection Request is true and correct.

RESIDENTIAL RENEWABLE ENERGY SOLUTIONS

RENEWABLE ENERGY CERTIFICATE ASSIGNMENT AND AGGREGATION FORM AGREEMENT ("AGREEMENT")

I hereby certify, by signing this Agreement, that I am the owner ("Owner") of the Qualified System to be installed and located at **498 PLAINVILLE AVE, FARMINGTON CT 06032**, which intends to participate in the Connecticut Residential Renewable Energy Solutions Program ("Program") pursuant to the Residential Solar Tariff approved by the Connecticut Public Utilities Regulatory Authority ("PURA"), as may be amended from time to time; and all applicable laws.

I understand and agree that, by signing this Agreement and in consideration of my participation in the Program that Eversource/United Illuminating, shall have all right, title and interest in, and to, my Qualified System's generation and environmental attributes, including, without limitation, all renewable energy credits and certificates (collectively, "Certificates") for so long as I participate in the Program with the Qualified System (the "Term").

Eversource/UI, its affiliates, and any agents, employees, and representatives thereof (collectively "Authorized Representatives"), are authorized to include and represent my Qualified System in the New England Power Pool Generation Information System ("NEPOOL GIS") and/or any U.S. state or domestic or foreign registry for environmental attributes (collectively, "Other Registries"), and to receive and use all Certificates created with respect to energy generated by the Qualified System during the Term. I approve Eversource/UI's inclusion of the Qualified System as part of an aggregation in any state and agree that Eversource/UI will be the Authorized Agent for the Aggregation. In addition, Eversource/UI or its Authorized Representatives, as applicable, may need my assistance to: (a) monitor and record the electrical energy output of the Qualified System, and verify and provide meter data directly to the NEPOOL GIS and/or Other Registries, in accordance with applicable NEPOOL GIS operating rules; (b) perform any and all acts necessary to ensure Eversource/UI's ability to participate in NEPOOL GIS and/or Other Registries and/or otherwise receive and use the Certificates; and (c) obtain, execute, and/or deliver any documentation as appropriate to such registries in order to qualify the Qualified Project for the purpose of including and representing the Qualified Project in NEPOOL GIS and/or Other Registries.

Nothing herein shall be construed to limit the rights of, or impose additional obligations upon, Eversource/UI with respect to the generation and environmental attributes of the Qualified Project as set forth in the Tariff, its governing Orders, and applicable laws.

I will take all commercially reasonable means necessary, and pay any costs or fees associated with such actions, to cooperate in a timely manner with Eversource or its Authorized Representatives to register the Qualified Project in NEPOOL GIS and/or Other Registries for environmental attributes in order to qualify for any program(s) and/or otherwise receive and use the Certificates.

I will comply with all rules related to the creation, tracking, recording, and transfer of all generation and environmental attributes transferred to Eversource or its Authorized Representatives pursuant to the Program Tariff, its governing regulations, and applicable laws. This includes but is not limited to my responsibility to: (a) notify Eversource/UI or its Authorized Representatives in writing in the event of a change in the Qualified Project's eligibility status under the Program Tariff,

as may be amended from time to time, as well as its governing regulations, the RPS Program, or any other U.S. states' program(s), NEPOOL GIS, and/or Other Registries for which the Qualified Project is qualified, within 30 days of when such changes were implemented and describe the changes in sufficient detail to enable Eversource to determine if a change in eligibility is warranted; and (b) comply with the notification requirements of NEPOOL GIS and/or Other Registries for which the Qualified System is registered or qualified.

This Agreement is binding upon the Owner, its successors and assigns, for the Term. I hereby certify that I am duly authorized to execute this agreement as the Owner.

Payment Beneficiary Form Residential Renewable Energy Solutions

Eversource/United Illuminating will make Residential Renewable Energy Solutions payments to the Payment Beneficiary indicated below. This form must be completed as part of the initial Residential Renewable Energy Solutions application process. For the Buy-All Tariff, a Payment Beneficiary, other than a Customer of Record, can be designated to receive a percentage of the total tariff compensation. Any compensation not assigned to a third party will result in Monetary On-Bill Credits to the Customer of Record. The Netting Tariff Payment Beneficiary, which may be the Customer of Record, can be designated to receive the Renewable Energy Certificate (REC) Incentive Payment paid out once every quarter.

Tariff Type	Netting
Is the Tariff Beneficiary an Individual or a Corporate Entity?	Organization
Payment Beneficiary First Name (or Corporate Entity Name)	Sunpower
Payment Beneficiary Last Name	
Payment Address	8900 Amberglen Boulevard
Payment City/State/Zip	Austin,TX,78729
Beneficiary Phone	8007867693
Beneficiary Email	ID.Incentives@sunpowercorp.com
Has a W-9 Form for this Payment Beneficiary been provided previously	
Percent of Buy-All Tariff to be provided as Payment to Payment Beneficiary (for Buy-All Tariff projects only)

*Homeowners have certain rights and protections under the Connecticut Home Improvement Contractor Law. To learn more about the law visit and home improvement contractor licensing visit <https://portal.ct.gov/dcp/Trade-Practices-Division/Home-Improvement-for-Consumers>.

**Complete remaining empty fields to assign responsibility.

***The Utility will request the customer-contractor contract/agreement with the first project application received from each installer annually.

NOTE: A Renewable Energy Certificate (REC) represents the Environmental Attributes associated with one megawatt-hour of renewable energy as defined by Connecticut law. RECs generated by the facilities participating in Residential Renewable Energy Solutions are transferred to the utility company in exchange for the incentive payments made to the facility owner under the program. Therefore, while you cannot claim that you are using the renewable power generated by the facility, your lease of a renewable energy system does support renewable development in Connecticut and increase the amount of solar energy consumed by all electric ratepayers in the State.

Program Fee Notice: All applicants to Residential Renewable Energy Solutions are required to pay a **\$329** application fees to support the administrative costs of the program. Additionally, customers will be charged fees if and when they make changes to the payment beneficiary information. You may or may not be responsible for these fees depending on your contract with your Installer.

I, ANSHUMAN RUDRA, hereby confirm that I have received and understand the above information.

I further confirm that I have had a chance to ask questions of my provider and have received sufficient answers, if applicable.
