Great news! The utility has given you permission to operate your system.

To turn on the system, please flip the switch by pulling the lever on the AC Disconnect box which is outside your house.

You can access the monitoring on mysunpower.com. Below is a link with instructions on how to download the mobile app with a video walkthrough of what you will see in the monitoring system.

My SunPower Monitoring Walkthrough[Connecting Monitoring to WiFi](#)

During the set up process, you'll need to enter the 4 digits from your monitoring device, they are:

3398

If you experience any issues during monitoring set up and connectivity, please call:

SunPower Technical Support at 1-800-786-7693

Please reply to my email to confirm you got set up with the monitoring app and turned on the system.

Thank you for choosing SAVKAT as your solar provider!

Kind Regards,

Sheri Barracliff**Project Concierge**
